

## IncoSilk

### IncoSilk Medicare Serum Plus

IncoSilk Medicare Serum Plus is a natural solution for troubled skin. Based on the latest scientific findings, the IncoSilk skin cream is suitable for people of all ages and of all skin types.

IncoSilk Medicare Serum Plus can help people experiencing skin problems caused by exposure to natural acidic irritants, such as urine or sweat. IncoSilk can also help to prevent development of fungus in certain body areas or infections, such as infertigo.

**IncoSilk is non greasy and leaves even the skin feeling soft and looking silky.**

### IncoSilk Active Ingredients

The active ingredients in the IncoSilk skin cream are as follows:

- **Lemon**
- **Lactic Acid**
- **Rice Seed Oil**
- **Calendula**
- **Korean Ginseng**
- **Hyaluronic Acid**

The IncoSilk Medicare Serum Plus skin cream contains Lemon and Lactic Acid that combat fungal and other infections; Rice Seed Oil and Calendula that keep the skin soft and subtle, even where the scabs have formed; Korean Ginseng that supports the skin's ability to recover and Hyaluronic Acid, a natural moisturizing agent that hydrates and re-balances the skin, whilst supporting its natural regenerative abilities.

### IncoSilk benefits summary

- **A natural product that is free from animal by-products**
- **Works and acts as zinc replacement**
- **Citric and lactic acid combat fungus by reducing its natural breeding habitat**
- **Can be used sparingly on baby's nappy rash**
- **Perfect for sensitive skin**
- **Ideal for feet and hands with fungal problems**

## Using IncoSilk

IncoSilk is for external use only. IncoSilk has no smell or fragrance. IncoSilk has a silky creamy texture.

IncoSilk should be applied liberally directly to affected areas. Contact with eyes should be avoided. When using IncoSilk on baby's nappy rash, use it sparingly. Do not use IncoSilk in conjunction with prescribed medical creams!

Point to note: As with all health related problems, seeking immediate medical advice for any skin complaint is strongly recommended.

## IncoSilk patch test

Prior to the first use, a simple 30 minute patch test is recommended. Apply a small amount of the IncoSilk to the skin on the inside of the upper arm and leave for 30 minutes. Wash off with clean plain water. If you observe any irritation caused by the patch test, do not use the IncoSilk!
