- Non-staining, easy to apply
- Standalone therapy
- Usable alongside other therapies
- Cruelty Free, not tested on animals
- Affordable and cost-effective

BIOFROST® Relief is an effective and safe superior cooling gel for arthritic pain, back pain, muscle pain, tension and soreness, joint pain and stiffness, chronic pain and more. BIOFROST® Relief speeds up recoveries from injuries and activity-related muscular tension by cooling down hot or overheating muscles.

BIOFROST® Relief contains organic MSM (organic sulphur / methylsulfonylmethane) that is present in the human body and in foods, such as milk, coffee, tomatoes, Brussels sprouts, kale, garlic and onions. MSM helps to maintain joint mobility, reduces inflammation and relieves muscle pain.

Upon application, the BIOFROST® Relief gel rapidly cools the skin for instant pain relief without harming skin tissues. Skin temperature on the area covered by the BIOFROST® Relief gel can decrease by 4°C in one minute and reduce further by as much as 7.4°C after 20 minutes. The temperature reduction can be sustained between 45 minutes to 2 hours, allowing ample time for pain relief and healing to take place. 4 daily applications of the BIOFROST® Relief gel can therefore provide effective drug-free pain relief safely.

BIOFROST® Relief helps to relieve acute and chronic pain, arthritic and rheumatic pain, muscle and joint pain, neck and shoulder pain, back and lower back pain, strains, sprains, sports injuries, bruises, muscle tension and fatigue, repetitive strain injuries, swelling and inflammation.

BIOFROST® Relief is perfect for people seeking safe and effective natural pain relief. It is a perfect pain relief gel for the elderly and disable people, convalescing patients, athletes and others suffering discomfort and aches. Easy to apply, fast-acting and safe, BIOFROST® Relief provides lasting relief from pain.
